Weather Conditions: Summer weather is usually pleasant during the day with temperatures in the high 50's to mid -70's. The days begin cool and usually require a jacket or sweatshirt until the morning sun peaks over the mountain tops warming the valley. In late summer daytime temperatures can be slightly warmer. Late afternoon as the sun lowers behind the mountains the air will immediately cool. Again jackets and warmer clothing are recommended. Occasionally there are afternoon showers and there have been time when it has rained for an entire week. Anytime someone goes camping they should be prepared for all types of weather.
